DISCOVER OUR STORY

Whatever your idea of wellness may be, Jacuzzi® has it for you. But if you really can't wait to find your perfect bath or shower, simply choose what you could never do without. Your wish will come true straight away.

"Water heals."

This statement belongs to Sebastian Kneipp, a 19th century Bavarian priest who laid the foundations of modern hydrotherapy, a healing method based on many ways of applying water. In particular, hydrotherapy uses full or partial showers or baths to warm or refresh the body.

The healing action is achieved thanks to the temperature of the water. The purpose of this treatment is to stimulate the body's natural self-healing mechanisms through alternate applications of hot and cold water.

The first reaction, which is skin deep, is then transmitted to tissues deep inside the body that are connected to the surface by means of the nervous system. Although a hot bath may be exhilarating at first, its aftermath may be stressful for the body. The water temperature must be adapted to the duration of your bath. Above 37°C water is classified as hot; at 40°C it is very hot and over 46°C it becomes unbearable for more than a few seconds.

40°C Hot water

Very relaxing, induces drowsiness and sleep.

$_{34\text{--}38^{\circ}\text{C}}$ Water at body temperature

Reduces tension and favours sleep.

Sweating, which cleanses the skin and body and helps to eliminate lactic acid, is stimulated by adding bath salts.

33°C Lukewarm water

Helps eliminate water retention.

27°C Cool water

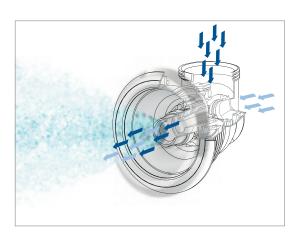

Alleviates fatigue.

18°C Cold water

Aids muscle recovery after physical exertion.

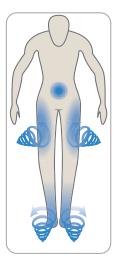

Hydromassage designed to be the best in the world.

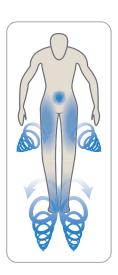

There must be a reason behind the famous name Jacuzzi® has made for itself as the best hydromassage in the world. In fact, there are plenty of reasons: the TargetPro™ jets for instance, developed to deliver a targeted massage to each body area thanks to a perfect mixture of air and water. Both their power and direction can be fully adjusted for an

effective massage, no matter what your requirements may be. Change the direction of your jets through 360 degrees to treat specific body areas with a perfect mixture of air and water. Rotate the jets to adjust their power or turn them off altogether.

Just the right temperature for wellness.

A hydromassage is truly perfect when it strikes the right balance between the temperature of the water and the duration of the bath. Heat is the ideal ally of psychological and physical relaxation but it can also cause excess stress. The general rule is: the higher the water temperature - that should never exceed 40°C - the shorter the hydromassage.

Recommended temperatures and durations:

As well as whirlpool baths, Jacuzzi® also offer a wide range of non-jetted baths. Total immersion in water at various temperatures has beneficial effects on the mind and body. You can even complete each treatment with essential oils and salts for a really unbeatable wellness experience.

HYDROMASSAGE

SHIATSU

A set of relaxing jets positioned along your back deliver a soothing, toning massage that also relieves pain.

TARGETPRO™

The many directions to which this jet can be adjusted produce a fully customisable hydromassage which, as well as flow, intensity and power, can be set to suit your needs.

TWIRL

The jets used for the back massage have a rotating action that gently massages the back, easing muscular tension.

TONIC

Multi-directional jets deliver a focused, vigorous treatment that uses a perfect mixture of air and water at the right intensity.

PURE AIR®

Lively or velvety smooth, this air bubble massage helps add oxygen to the water, revitalizing the skin and giving it a clearer appearance.

PROGRAMMES

SILENCE

Dissolves muscular tension and strain in blissful silence, favouring complete relaxation.

RECHARGE

This sequential hydromassage gradually increases in intensity to recharge and tone your body, dissolving contractures and stiffness.

RELAX

This hydromassage promotes deep psychological and physical well-being because it is delivered at a slow, harmonious pace that matches the rhythm of your breathing.

REBORN

A blend of gentle and toning properties. The water pampers you in a beneficial embrace.

R AINIROW

This is an authentic chromotherapy treatment for total wellness that involves the mind as well as the body.

SOUND SYSTEM BLUETOOTH®

Your favourite music offers you an even deeper wellness experience.

HEAT

This system keeps the water temperature constantly perfect.

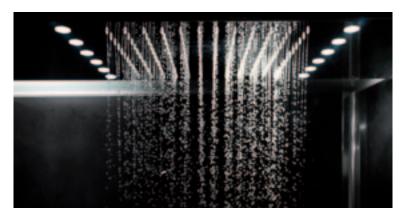

CLEAN SYSTEM

Automatically disinfects and sanitizes your whirlpool bath.

Shower and steam bath. Your wellness centre.

Raindrop, Scottish, cascade....there are all sorts of showers but those produced by Jacuzzi® can easily be summed up in two words: wellness centre. The adjustable jets, that can be directed to any body area, deliver the benefits of an authentic, relaxing and regenerating treatment for the mind and body. Jacuzzi® hydrotherapy has been designed to satisfy all your requirements: it firms the skin and keeps it supple, promotes proper blood circulation and even fights cellulite.

You can take a purifying steam bath, cleanse your skin in

depth, boost your respiratory system and take off again with renewed energy. The steam bath, also called "hammam", uses dry steam and differs from a sauna because it requires an environment saturated with hot air at 40-50°C and 100% humidity. This treatment strengthens your immune system, speeds up your metabolism and improves blood circulation. When paired with aromatherapy it delivers awesome benefits for your mind and body. In other words, wellness is just a Jacuzzi® away. And we keep our promises.

SHOWER AND STEAM BATH

STEAM BATH

All the regenerating heat of steam cleanses you deep down and gives you a feeling of authentic well-being. For a totally renewed you.

SHIATSU

A set of relaxing jets positioned along your back deliver a soothing, toning massage that also relieves pain.

DORSAL HYDROMASSAGE

An unparalleled combination of toning and firming energy stimulates blood circulation, melts away tension and gives you a new lease of life.

EMOTIONAL SHOWER

An enthralling interplay of lights and water contributes to pure relaxation. Just choose the function you prefer.

NEBULIZATION

A mist of regenerating and beneficial microjets refresh your body.

CASCADE SHOWER

A constant, powerful jet relaxes the muscles most targeted by fatigue.

PROGRAMMES

AROMATHERAPY

This fascinating sensorial experience turns every breath into an emotion.

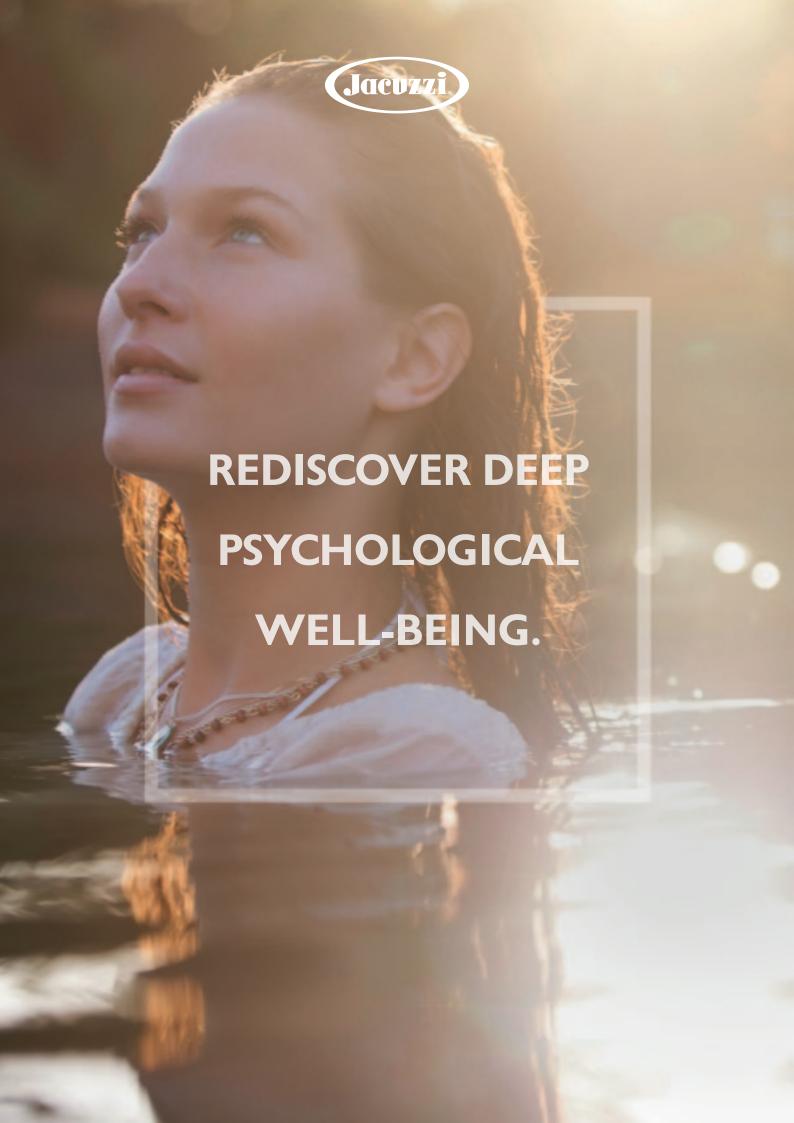

SOUND SYSTEM BLUETOOTH®

Your favourite music offers you an even deeper wellness experience.

PEACE OF MIND AFTER YOUR PURCHASE.

After having purchased a Jacuzzi® product it is important to be able to enjoy trouble-free peace of mind in the knowledge that you can count on an efficient and widespread after-sales service. The J-Service organisation is made up of skilled and qualified professionals who ensure that each Jacuzzi® product stays in perfect shape for a very long time. Jacuzzi® Service Centres are important points of reference for our customers who can count on constant advice and periodical maintenance for their bathtubs. Jacuzzi® products come with a 24-month guarantee: contact your nearest dealer or an authorised after-sales service centre for details of the scheduled maintenance programme and of the guarantee extension.
