

LIVING BATH ROOMS

The time to start something new.
Contemplation of the things
that we find soothing in life.
The decision to modernize.
The best moment? Here and now.
With Duravit.

We develop the right interior,
sustainable furniture and comfort-
enhancing technologies for anyone
who wants to breathe life into
their bathroom. Some of this can be
found in the new Badmagazin,
more on the internet or ask your
bathroom planner, architect and
Duravit dealer.

Duravit. Living bathrooms.
The original, since 1817.

XSquare

Design by Kurt Merki Jr.

The perfect synthesis.

The XSquare bathroom furniture range combines different materials to produce something quite new and exciting. The surfaces of the cabinets and vanity units contrast with the striking chrome profiles featured throughout the range and lend it a unique, high-class style.

Brioso

Design by Christian Werner

Tone-in-tone handles

Polished chrome handles

22 White High Gloss

18 White Matt

09 Light Blue Matt

07 Concrete Grey Matt

91 Taupe Matt

43 Basalt Matt

49 Graphit Matt

Polished chrome handles

75 Linen

31 Pine Silver

52 European Oak

73 Ticino Cherry Tree

79 Natural Walnut

51 Pine Terra

21 Walnut Dark

53 Chestnut Dark

Contemporary design with sweeping casualness.

Characteristic details are the precise, finely nuanced lines and the striking, ergonomically designed handle.

Luv

Design by Cecilie Manz

**"There's a piece
of nature within Luv."**

Cecilie Manz

80 cm

60 cm

42 cm

Nordic purism with timeless, emotional elegance.

The Luv above-counter basins come in different sizes as plain bowls and with a tap platform right or left. The outer surfaces are available in White, Grey or Sand in a satin matt finish as well as glazed in White. For a harmonious look: the ceramic drain cover.

DuraSquare

Design by Duravit

Straight-lined and organic.

Pared down and finished to a high quality: the design of the new architectural series combines the precise edges of the rectangular outer form with the organic flow of the inner contours.

Vero Air

Design by Duravit

New precision, perfect proportions. Architectural. Straight-lined.

Reduced edges, exact radii and the straight-lined inner surfaces form the striking features of the series.

ME by Starck

Design by Philippe Starck

"Modern design
avoids design."

Philippe Starck

Pure reduction. Real elegance.

Reduction, functionality, clarity and elegance. A timeless design concept responds to an overcrowded world. The desire of neatness reflects a puristic lifestyle. A combination of select materials and subtle luxury. Extravagant, but not extroverted. Just like ME by Starck.

Starck 1

Design by Philippe Starck

Back to the beginnings of bathing culture.

In 1994, inspired by the bucket, the tub and the washbowl, Philippe Starck created a complete bathroom featuring pioneering craftsmanship that appears as fresh and new today as it was then.

Modelled on nature, based on the principle of reduction.

The ceramics seem to flow gently rather than have austere geometric lines. The unadorned design of this range takes its place amongst the design classics.

Starck 2

Design by Philippe Starck

Starck 3

Design by Philippe Starck

One design, many options.

Starck3 introduced design to a segment where there was no design. And at surprisingly good value for money. With more than 50 models and 64 variants, Starck3 simply meets all requirements.

Cape Cod

Design by Philippe Starck

77 American Walnut solid

76 European Oak solid

81 White Oak solid

95 Vintage Oak solid

85 White High Gloss

85 White High Gloss with doors

A bathroom range like a day at the beach.

Produced from solid wood, each of the consoles and shelves from the Cape Cod bathroom furniture range features a unique grain. The washbowl is like nothing you've seen before: high-quality, attractive porcelain, made possible by the innovative material DuraCeram®.

DuraStyle

Design by Matteo Thun & Antonio Rodriguez

Big on style, small on price.

High functionality and the familiar Duravit quality, plenty of scope for combination and composition. And all this at an extremely affordable price. The overall range affords impressive functionality – both in private bathrooms and in the project sector. Two finishes – light and dark – present even more options.

"Everyone uses the
bathroom in their own way."

Matteo Thun

DuraStyle Basic

Design by Duravit

Simple design language with high functionality.

The DuraStyle Basic toilets have been upgraded – visually and technically completely redesigned at an attractive price. The Duravit Rimless® flushing technology ensures hygienically perfect flushing results. With a puristic design, the toilets can be perfectly combined with many Duravit bathroom series.

Vero

Design by Duravit / Kurt Merki Jr. (Bathroom furniture)

Consistency and comfort come together.

Not without reason is the Vero ceramic series a modern design classic: its style, consisting entirely of rectangles, is extremely elegant and timeless.

The innovative connection of ceramics and furniture.

The Darling New furniture washbasin and the L-Cube vanity unit form a perfect harmony. And all because of the new c-bonded technology. The furniture starts exactly where the ceramic ends. The joint between the two materials is durable, seamless and waterproof.

Darling New c-bonded

Darling New
Design by sieger design

L-Cube
Design by Christian Werner

Happy D.2

Design by sieger design

Elegance is timeless.
Gently rounded edges and
clear, geometric forms
create a gracefully
composed, complete
bathroom.

**Not only visually
convincing.**

Happy D.2 brings a pleasant tactile sensation into the bathroom with its "Linen" textile decor.

**"Demand what seems
impossible to achieve
the extraordinary."**

Michael Sieger

P3 Comforts

Design by Phoenix Design

Perfect comfort that is perfectly cool.

P3 Comforts offers products with many comfortable features: the separation of wet and dry areas, generous surface areas for bathroom essentials and elegant design with gently curved edges and soft pleasant transitions.

Contemporary and contemplative, bathroom furniture as a collage.

No handles, no unnecessary elements, no distractions. A key characteristic of the range is a shadow gap that surrounds the fronts and sides of the furniture. This visual framing places the washbasin on a higher level – making it appear as if the furniture and furniture fronts do not touch one another. The style, function, “feel” and color scheme can be selected individually, allowing you to create customized storage solutions.

L-Cube

Design by Phoenix Design

Ketho

Design by Christian Werner

Low budget – high standard.

Big on design, small on price. With a bathroom furniture program that is ideal for first-time buyers and has a reduced look making it completely at home in any modern bathroom.

Delos

Design by E00S

Technology becomes magic.

There are no handles to interrupt the clear design: the cabinets are easily opened by the slight overlap of the doors and the drawers by tip-on technology. The console has no visible carrier construction, which gives it a light, floating character.

1930 Series

Design by Duravit

A modern interpretation of traditional country living.

The striking, octagonal basic form is typical of the design of the 1930 Series. Since ancient times, the octagon has symbolized perfection.

X-Large

Design by sieger design

Slimline storage expert for small and large bathrooms.

X-Large combines extra-large storage space with an elegant form and tremendous flexibility for lots of different configurations. Delicate contours, ingenious shadow gaps and a mix of open and closed fronts create bathroom furniture that offers more than meets the eye.

Stonetto

Design by E00S

Convincingly authentic.

The Stonetto shower tray communicates an entirely new, archaic shower sensation. Inspiration from the E00S design group: a stone surface worn and formed by water. Created in its entirety from DuraSolid®, the shower area and outlet cover form a single visual unit. Available in 12 sizes and 4 colors.

OpenSpace

Design by E00S

Creating space.

OpenSpace is the shower enclosure that enlarges the bathroom. The good value for money is based on the simple design of the wall profiles – made of high-gloss polished aluminium. After showering, the glass doors can simply be “folded” back against the wall.

OpenSpace B

Shower + Bath

Design by E00S

**"Bath or shower?
We like both."**

E00S

Walk-in shower and bathtub in one.

Bathtub, bathtub panelling and base made from DuraSolid®: the innovative material enables sophisticated designs – narrowly defined radii, high-quality, generously sized shower area, comfortable large bathtub.

Universal consoles

Simply unique: Duravit unifies the console ranges and thus offers individual and simple design solutions. The basis for this are the furniture ranges L-Cube, Vero, Happy D.2, Delos, DuraStyle, Ketho and X-Large. The organizer systems are perfectly harmonized with the respective bathroom furniture - optionally available in solid American Walnut or Maple.

C.1

Design by Kurt Merki Jr.

Perfect form, perfect functionality.

The C.1 tap fitting range continues Duravit's high design standards in the area of bathroom tap fittings. Designed by Kurt Merki Jr. Four different sizes make the C.1 tap fittings compatible with any washing area, from a handrinse basin through to a washbowl.

B.1

Design by Duravit

Familiar soft forms for private and project bathrooms.

Soft contours, appealing and timelessly elegant. A universal range of tap fittings for all standard applications: washing area, shower, bathtub and bidet.

B.2

Design by Duravit

Clear, straight-lined tap fittings for all applications.

Bathroom users who appreciate clarity, pared-down design and a sober aesthetic will find a perfect form of expression in the B.2 tap fitting range – for private bathrooms and the project sector.

Overall design harmony.

Because Duravit sees the big picture when it comes to bathrooms, we also design our products to be combined with one another. For example, our tap fitting ranges are perfectly complemented by matching hand showers and showerheads with various corresponding accessories. This makes it that much easier for the bathroom professional and user to plan a harmonious bathroom.

This product is made of material from well-managed, FSC®-certified forests and other controlled sources.
